

## Schnittmuster drucken

1. Öffne die PDF-Datei (z.B. im Acrobat Reader).
2. Wichtig: Stelle in den Druckeigenschaften „tatsächliche Größe“ oder „100%“ ein, sodass der Ausdruck nicht skaliert wird. Drucke diese erste Seite aus und überprüfe die Maße des Kontrollkästchens.
3. Sind alle Einstellungen in Ordnung, kannst du die restlichen Seiten ausdrucken. Du kannst sie farbig oder schwarz-weiss drucken.

## Schnittmuster zusammenkleben

1. Schneide jeweils den rechten und den unteren Rand ab.

2. Klebe die Seiten aneinander (mit einem Klebestift oder einem transparenten Klebeband). Die Linien, sowie die identischen Zahlen und Rauten treffen dabei aufeinander. Starte mit den Reihen und klebe dann die Reihen an der oberen bzw. unteren Kante, aneinander.
3. Schneide die einzelnen Schnittteile in deiner Konfektionsgröße aus.

The diagram shows a perspective view of a roof structure. It features several parallel lines sloping downwards from left to right. The lines are color-coded: a top blue dash-dot line, a cyan dashed line, a magenta dotted line, a red long-dashed line, a purple solid line, and a green dotted line. Two vertical lines, one blue dash-dot and one red long-dashed, intersect the sloping lines to form a rectangular control box. The text '10 x 10 cm' and 'Kontrollkästchen - bitte nachmessen und prüfen, ob Breite/Höhe exakt 10 cm betragen' is located inside this box. The drawing is framed by black corner markers with the numbers 2 and 3.
